

## EFFECTIVE HOLISTIC & CULTURALLY RESPONSIVE PASTORAL CARE

### This workshop

Providing professional level holistic and culturally responsive pastoral care to our students has never been as important as it is today. This workshop is suitable for those experienced and new to pastoral care provision.

In this workshop you will be introduced to and experience the highly effective and evidence based 'Whare Tapa Rima – Five Sided (WTR-FSH) Support Model' plus others. You will have the opportunity to assess and plan to improve your own holistic health and wellbeing and that of students and staff you work with.

NZCDI's wellbeing support approaches have been researched in two Ako Aotearoa supported Best Practice Research Projects, where the cultural responsiveness and extraordinary effectiveness of our models was demonstrated in practice.

Also examined during the day will be how this model can support you and your school to address new Pastoral Care Code requirements. Participants are welcome to bring along pastoral care challenges for discussion at the workshop.

### Facilitators:

We are pleased to announce provide these workshops will be facilitated by the experienced consultants.

### Includes:

Workshop and Resource

### Duration:

One day workshop

### Investment:

\$500 Inc. GST per person

- 10% discount off the total fee for 2 or
- 15% discount off the total fee for 3 or more participants from your organisation.
